

REAL PATIENT TESTIMONIALS

“Dr. Pierre is very knowledgeable and compassionate, he’s the kind of doctor that seems hard to find these days. He truly cares for your well-being and is always determined to fix whatever the issue is, not mask it. He works constantly, anytime you need him he is there, always a phone call away. He’s the best doctor I’ve ever had. I highly recommend him!”

“Dr. Pierre is the most compassionate doctor, of any kind, I have ever been treated by. He truly takes the patient’s perspective into consideration when making treatment recommendations & he cares if you say, I need to try something more cost effective. Dr. P is not only a great physician, but he is also a great human being!”

“Dr. Pierre is very committed to his patients and their needs I find that very refreshing because he’s not in it for the money like some are! he’s in it to restore his patients’ lives! This past visit was my third visit with him, and I was very confident that he cared about my life which I knew the appointment before but it just sprinkled it on this last one thank you Dr.”

“Thanks so much for all the help. It’s been a long time since I’ve had such a good experience with a doctor.”

“Dr. Pierre has been a life saver for me. I’ve seen a lot of doctors in my life, but none that treated me like such a priority, or with ‘individual’ treatment. He’s an amazing doctor and exceptional human being.”

“Dr. Pierre actually cares about getting to the bottom of your pain and getting as close as he can to eliminate it. He listens to you and welcomes feedback. He has gone above and beyond to help me!”

“This doctor cares about your success and wants to see you do great things with your life. He is so professional, and he knows what he is talking about.”

“One of the most professional, friendly, compassionate, intelligent doctors I have ever met in the last ten years in pain management. He’s awesome!!!!”

“I am so thankful that you accepted me as a new pain person. That I found a doctor that cares.”

“Love my doctor, great guy. He helped me change my life for the better. If only other doctors could work with us working guys, we need it at times.”

"Dr. Pierre, I would like to thank you for being my Dr. I feel comfortable when I arrive in your office. Thanks for helping me living life great with my grand babies and just life in general. Happy to have you as my Dr. A+!"

"I am extremely happy with Dr. Pierre. I'm very pleased with how I can get into to see the doctor within a couple days of making my appointments. It's very convenient to be able make these appointments online. Dr. Pierre spends the amount of time with me during my appointments that help me to feel my best interest is on his mind as we discuss my treatment plan. He answers my questions in a way that I completely understand. I recently needed his help and when I contacted him, his response was very quick & the problem I had encountered was resolved just as fast. I truly appreciate his professional manner as well as feeling that I can speak openly during my visits. I completely trust his judgement and have referred my family to Dr. Pierre who is also is very pleased with the care & service that he provides. I will recommend him to others in the future. I am happy to have found him when I did. Dr. Pierre is a wonderful doctor who holds a lot of wisdom & knowledge. It is obvious to me that he is constantly educating himself. This is the type of doctor everyone should have caring for them."

"Dr. Pierre saved my life and is one of the most compassionate, intelligent, and qualified doctors I've ever met. I'm so glad I found him, and my family feels the same. I highly recommend him for suboxone therapy."

"Very efficient, quick and nice."

"Superior care. Dr. Pierre is a genuinely concerned and caring person who listens attentively and treats the whole person. If you are a person who is suffering from chronic pain or addiction, I would highly recommend Dr. Pierre. He has dramatically improved my quality of life and has given me my life back."

"Dr. Pierre he the best Dr I've ever had and he's very compassionate and caring who will go the extra mile to help you get thru the tough times! I love him to death would recommend him to any addict or person who's in pain! I've been on everything and he's done tried everything there was until I got relief! Thank the Lord for Dr. Pierre! He never gives up on you! Give him a try he's the best ever! We we're one of his first patients and we will never leave him and he's such a great Dr he gives you his own cell number! Dr. Pierre is the only one to use! I give him 10 stars!"

"I had a fantastic visit with Dr. Pierre. He is so kind and caring and actually takes the time to listen."

"My 1st time to visit Dr Pierre was very comfortable. Dr. Pierre spent over an hour getting to know my health conditions before he prescribed me with medications for my treatment. Very down to earth Dr. I will keep seeing him and would recommend him to anyone that needs a professional Doctor. Dr Pierre is your answer."

“Dr. Pierre was not only compassionate, but seemed to actively listen & understand that in addition to injuries that cause acute pain, the way one treats their body early in life (e.g. sports injury, strenuous exertion levels in one’s career, etc.) directly affects the chronic pain level one feels later in life. He also understands & works well with self-pay patients in getting the best possible care for one’s budget, so that one is not left deciding whether to pay the rent or get your medications each month. He is very knowledgeable about getting as many miles out of treatment options that work well for the individual. You will definitely not find cookie-cutter medicine being practiced here! Frugaldoctor Anesthesia is a patient-centered atmosphere and the non-traditional appointment times make it a perfect match for the working man! Frugaldoctor is a prime example of the type of patient-centered care that physicians should adopt all across this country!”

“This doctor actually made me feel like a person. he works in every way possible to get his patients healthy.”

“Very professional, in a very low-key area so that nobody will know exactly what you are doing. The doc truly takes time to hear and understand you!”

“Making appointments is very easy and quick online. I’ve contacted other doctors for suboxone therapy and was added to a waiting list. Having the ability to choose my appointment time according to my schedule was great. I was able to meet with Dr. Pierre within 1 week. The appointment itself was in a relaxed & professional atmosphere. I felt free to talk about my concerns & history openly without judgement. I would without a doubt refer friends or family to Dr. Pierre in the future.”

“The doctor is not only knowledgeable, but caring. I truly enjoy seeing a doctor who is strong enough to look beyond his or her own field of expertise for other approaches that might help their patient. A doctor who is patient & results-oriented rather than only profit centered.”

“Dr. Pierre is very kind and has a true passion for helping people. I am very impressed in how he provides care for his patients. I would and will highly recommend him to anyone looking for a doctor in his line of care.”

“Dr. Pierre is great!! He is not just a good doctor, but he is a good man...I am looking forward to my next visit!!”

“Dr. Pierre is the most caring, yet professional doctor, that I’ve ever seen. He helps me and my husband both. We are grateful to have found him.”

“Booking an appointment has never been easier! I like how the system asks the patient multiple times after you’ve made your appointment on whether you wish to keep the date & time slot or not. One thing we are all trying to avoid is a waste of time or overpaying. I would say that this system is well worth whatever \$ has been put into it. Much better than calling in, waiting, then booking.”

"I found the out about Dr. Pierre through a simple google search for suboxone doctors in my area. I'm a new patient, and from the very first appointment, and since I've felt very comfortable with him. I love how I can book online, confirm my appointment, get text reminders both the day before and day of my appointment. In my last appointment I was advised that we now can pay online, which is very convenient, because I will no longer have to stop and withdraw money from my bank or the ATM. It's a very easy website to navigate and I'm beyond pleased with everything and everyone involved. If the rating allowed, I would have definitely given you guys a 10, because Dr. Pierre have worked with me on scheduling appointments on days where my appointment was cancelled. He took time to meet me in between surgeries. I've already recommended two people to you guys. As far as I'm concerned, there is nothing you need to change or do to make the patients experience more simple and extraordinary. Keep up the good work. Best Dr, staff, and website I've ever had to deal with. That's saying a lot, because I've been to several doctors since 2009, not once have I ever been so happy or recommended two buddies of mine to the several other offices I've been too. You guys are awesome, and I love how responsive Dr Pierre is, he will reply extremely fast!"

"It is so refreshing to meet a doctor who truly is a doctor and not just someone with a prescription pad. Dr. Pierre is caring and thorough. He spent time explaining to me his views on what his experience has taught him concerning those with my physical and history findings. I appreciate his expertise and willingness to think outside conventional medical dogma when necessary. And I appreciate how he lays out a plan for patient care."

"I've been going to Dr. Pierre for about 8 months now and he is a great Doctor! He cares, he listens, & he's stern! He expects the best out of his patient and accepts nothing less! I've been an addict for 15 years and I've never been so confident that I'm going to make it this time with his help and with the maintenance of suboxone."

"Dr Pierre is awesome. He's one of the first doctors to take me seriously. I really appreciate him. He explained everything in detail and took his time and listened."

"Very satisfied with my meeting with Dr. Pierre, it went very well, and I found a lot of the information he gave me very useful, if I ever have any friends in a situation that warrants it, I will definitely recommend them to Dr. Pierre."

"Dr. Pierre was extremely patient and knowledgeable. I felt he was extremely thorough and made me feel calm during the first appointment. Going to the doctor always has been difficult for me but my appointment with the doctor was insightful and got down to the point. I feel very lucky to have found such a caring doctor."

"I have been seeing Dr Pierre for 2 years he got to the root of my problem and directed me to the correct solution to give me the quality of life that I have been searching for. I cannot thank him enough for all he has done for me and my family."

"Dr. Pierre was so calm and explained everything to me. I was impressed! I will recommend him! Thank him and his team for being so nice and caring!"

"Dr. Pierre he is the most caring Doctor I have ever met hands down. He has gone out of his way to help me with the unbearable Pain I (was) living with. Also, I want to thank Dr. Pierre for the 2 treatments that I would of never been able to pay out of pocket for them and my Insurance more than likely wouldn't of authorized the Amniotic stem cell treatment. Thank you, Dr. Pierre, for all you do."

"Dr. Pierre is very professional, skilled & thorough. I was very nervous to have my knee injected for the first time, and he made me feel very relaxed and at ease and it did not hurt like I thought it would."

"Dr. Pierre uses his knowledge and resources to the best of his ability. I respect him more than any other Dr, more than the majority of humans. he empathizes, he seems to have legitimate concern for his patients. and most importantly he tries to help his patients. from my experience, most doctors guess and send patients on their way to get them out of their hair. he listens and understands. After experiencing Dr. Pierre, I never wish to have anybody else put their doctorate to use on me. He is outstandingly ethical and down to Earth, always making everybody feel comfortable. This man deserves every penny he makes, and more!!! I'm sure I'm not the only patient I speak for when I say thank you and we love having you treat us. You actually see us as human beings and care enough to listen to our thoughts and concerns. There's no other doctor who can compare!"

"I am so glad I found him to be my doctor. He listens & cares & remembers. He is great & a pleasure to visit."

"Dr. Pierre's appointments are a one-on-one basis where he sits and talks and listens to everything you have to say and doesn't dismiss it or talk over you and then prescribes a treatment plan that he thinks will work for you. One of the nicest doctors I have ever met and this was just my first visit. I look forward to beating my opioid addiction with the help of Dr. Pierre because I know he is in my corner and my recovery is as important to him as it is to me!"

"I was treated very well. Felt at ease once I was there a few minutes and the Dr is amazing. Listened very closely to what I said and took it seriously. I felt like my issues were addressed wonderfully and no judgement was put upon me for my disease. Made an appointment that I was concerned I would come out of demoralized feel positive for my future."

"I was appreciative of the professional, friendly, and genuinely-concerned office and clinical staff. Then Dr. Pierre listened to me. He actively listened to what I feel is a very complex problem of long-term chronic pain and the subsequent opiate tolerance and dependency. Outstanding care and excellence in this field of medicine."

“Dr. P is truly the leader of the pack! He demonstrates a level of caring & understanding that is often lacking in this fast-paced world today. He is an outside the box type of thinker & he goes that extra mile & gives his patients that one-on-one attention that is often lacking in this fast-paced society today. He works with you to help find resources while keeping costs down & he truly cares about & listens to the patient. He gives individualized care that often gets lost today. I don’t know how he does it, but he is one of the most remarkable physicians our family has ever come across. Even more important, he is just a stellar human being. I truly hope that Dr. P knows just how important he is to his patients & the work that he does.”

“Dr. P is the most compassionate, and caring doctor our family has ever encountered. He is an outside the box type of thinker, and he does so with the patient’s circumstances in mind. He gives personalized care on an individual basis that is often lacking today with so much regulation in the medical industry. He went out of his way to find specialized treatments for my special condition, and he took my finances into consideration when doing so. Dr. P is the needle in the haystack. He is the exception, not the rule. Small town personalized care in the big city. The environment here is more of a learned friend. Thank you, Dr. P! You are one in a million.”

“Dr. Pierre is the most caring, compassionate, & intelligent doctor our family has ever encountered. My condition has required me to be under routine care since birth. So, from a patient’s perspective, you could call me somewhat of an expert in patient care. By far, Dr. Pierre takes the cake! By the second month with Dr. Pierre, I was up & more active than I have been for the past 8 years! Dr. Pierre is willing to go that extra mile to find out what works for the patient-as an individual-and he works hard to make sure that plan works as long as it possibly can. He is an active listener & he takes patient concerns seriously. Dr. Pierre should be the one that all other doctors are molded after. He is a true blessing to his patients. And whether he knows it or not, he is one in a million! Thank you, Dr. Pierre!”
